Introduction

You enter TBFC's AttackBox, a secure virtual training environment designed for hands-on cybersecurity practice. Mastering the command line in this safe sandbox is your first step toward becoming a skilled defender.

Walk Through

1. Click the view site button to load the virtual attack environment
2. Use `ls` to view files

3. Use `cd` to move to the challenges directory
 1. `cd challenges`
 4. Use `ls` to view files in the challenges directory
 5. Use `cat` to view the contentents of `welcome.txt`
 1. `cat welcome.txt` [WelcometoAttackbox.png](#)
-

Lessons Learned

- Learned basic Linux commands: ls (list files), cd (change directory), and cat (view file contents)
 - Successfully navigated the AttackBox virtual environment to locate and read the welcome message
