

Certification or Course Summary

Completion Date: [YYYY-MM-DD] **Issuing Body:** [CompTIA, Offensive Security, SANS, etc.]

Domain Focus: [Network Security, Incident Response, Ethical Hacking, Cloud Security, etc.]

Portfolio Value: [High/Medium - Why is this relevant?]

? Key Objectives

- [Objective 1: Summarize a major area covered]
 - [Objective 2: Summarize another major area covered]
 - [Objective 3: Summarize a major area covered]
-

?? Core Skills Gained/Refined

Network Security

- **Firewall Management:** Gained proficiency in configuring ACLs and NAT on [Cisco/Juniper/etc.] devices.
- **Protocol Analysis:** Deep dive into TCP/IP, understanding packet structure using **Wireshark**.

Security Operations (SecOps)

- **SIEM Usage:** Experience in parsing logs and creating detection rules in **Splunk/ELK Stack**.
 - **Incident Handling:** Applied the [NIST/SANS] Incident Response lifecycle to simulated scenarios.
-

? Significant Project or Lab

Briefly describe the most challenging or informative project/lab undertaken during the course.

- **Title:** [e.g., "Building an Active Directory Lab for Lateral Movement Simulation"]
 - **Summary:** [2-3 sentences explaining the project and its outcome.]
-

? Next Steps

How will you apply this knowledge?

- [Specific goal, e.g., "Apply these concepts to a real-world bug bounty target."]
 - [Related certification or learning path]
-

Revision #2
